

JENNY WONG

PROFILE

UC Davis graduate with a background in Design and Computer Science. Experienced with user-focused design and converting designs into functional applications/websites. Engages in mindful and compassion driven approach to understand, connect with, and meet client needs.

WORK EXPERIENCE

Educational Assistant, Aug 2023–Present

ProCare Therapy

- Practiced mindfulness and compassion driven approach to build trusting relationships with special needs students
- Coordinated and tailored lesson plans based on individual students' learning abilities

Programming Instructor, Jun 2022–Sep 2023

Coding Minds Academy

- Hosted multiple different programming classes: Python, Flutter, JavaScript, Scratch, one-on-one or in small groups
- Fostered critical thinking and problem-solving skills by encouraging students to explore and discover solutions independently through guidance and prompted questioning
- Improved HTML, CSS, and JavaScript curriculums by revising outdated content and creating engaging topic-focused, guided projects
- Crafted a visually cohesive exercise website in collaboration with developers, seamlessly reflecting the academy's visual identity

Front-End Development Tutor, Jun–Jul 2021 & Sep–Dec 2021

University of California, Davis

- Hosted weekly tutoring sessions to assist students with assignment and project specific questions
- Empowered individuals to grasp HTML and CSS concepts by offering guidance on design and development decisions for their websites
- Delivered constructive feedback to streamline and optimize their code structure

Secretary, May–Dec 2021

Associated Students of Interior Design, University of California, Davis

- Designed and sent out weekly newsletters, responded to club emails, and consistently updated team with meeting and task reminders
- Enabled smooth transitions for team members entering new roles by organizing board and general meetings and providing support in designing Google slides, documents, and graphics
