JENNY WONG

PROFILE

I am a UC Davis graduate who studied in Design and Computer Science.

I consider myself responsible, reliable, and detail-oriented.

I look forward to working on UX/UI design and/or code-based projects.

OBJECTIVES

I am committed to prioritizing the needs of users to create seamless and enjoyable experiences because I truly value the importance of empathizing with users.

- *Programming*: HTML, CSS, Javascript
- *Tools*: Git, Github, FlutterFlow

UX Methods
- UX Research
- Wireframing, User Flows, Personas
- Comparative Analysis
- Usability Testing
- Prototyping
- Design Lifecycle

WORK EXPERIENCE

Paraprofessional
ProCare Therapy | Aug 2023–Present
Helping students with special needs stay focused and understand academic material by remaining patient, calm, and encouraging. Learned how they wanted to be approached by observing their personality, understanding their desires, and empathizing with them. Also helped them regulate their emotions by reminding them to use their coping skills and how to communicate their needs.

Coding Instructor
Coding Minds Academy | Jun 2022–Sep 2023
Managed multiple different programming classes and designed lessons and projects to help students recognize and demonstrate their potential. Responsible for creating improved curriculums by combining previous lesson plan with additional research. Collaborated with a team of developers to design a programming exercise website that aligned with the academy's visual identity.

Undergraduate Tutor
UC Davis | Jun–Jul 2021 & Sep–Dec 2021
Conducted tutoring sessions to assist students in understanding HTML and CSS and inform them of design and development decisions when building their websites. Provided feedback on how to organize and condense their code.

Secretary
Associated Students of Interior Design, UC Davis | May–Dec 2021
Organized board and general meetings, helping team members adjust to new role by designing Google slides, documents, and graphics. Responsible for sending out newsletters, replying to emails, and sending out reminders to keep my team organized and updated.
